

# Tired of your slow Internet Connection?

## Get High Speed Internet with

Today's customers are demanding high speed, multi-megabit internet connections that are competitively priced. EverSpeed EFM from Everglades Technologies can blow away your competition with lightning speed downloads. EverSpeed provides steadfast internet access at fiber-like speeds ranging from 5Mbps to 30Mbps directly to the customer's location while consecutively providing quality performance.

EFM (Ethernet First Mile) grooms multiple digital copper circuits into a fiber-quality carrier-grade link. It is delivered to the customer's location via an Ethernet hand-off, providing a powerful connection for rapid communication. With EverSpeed EFM you are always one step ahead of the competition.
